**Full Dosing for Everything (using Brain CLR+ 100mg)**

**Autoship / Subscription**

The initial purchase of this Longevity Bundle starts the autoshipment of the kits below. Because some products will last longer than others, the shipments are divided into 3 different kits, each with their own unique product. One will autoship every 4 weeks, another every 6 weeks, and another every 10 weeks, so you will always have new bottles arriving just as you need them.

The calculation for the chelators is based on taking 1.0mg of CytoDetox+ 3x per day and 100mg of BrainCLR+ 6x per day.

You have the ability to view, pause, change the date, and add or removed items in your kits in your Pompa Program Store account under "Subscriptions". You also have the ability to cancel your autoships at any time.
