

## 5 ON & 9 OFF

### Low Detox Dosing with Supplements Split Between ON & OFF Cycles (using Brain CLR 25mg)

**Low Detox Dosing:** This means that you are taking 0.5mg or less of CytoDetox+ and 50mg or less of Brain CLR.

**Split Between ON & OFF Cycles:** This means that you are only taking certain products ON cycle and certain products OFF cycle.

#### Autoship / Subscription

The initial purchase of this Longevity Bundle starts the autoshipment of the kits below. Because some products will last longer than others, the shipments are divided into 3 different kits, each with their own unique product. One will autoship every 6 weeks, another every 8 weeks, and another every 12 weeks, so you will always have new bottles arriving just as you need them.

The calculation for the chelators kit is based on taking 0.5mg of CytoDetox+ 3x per day and 50mg of BrainCLR 6x per day. If you are using less of these products, then you have the ability to change the date of your autoshipment for that kit.

You have the ability to view, pause, change the date, and add or removed items in your kits in your Pompa Program Store account under "Subscriptions". You also have the ability to cancel your autoships at any time.
